

# SURFACE FINISHING OF FASTENERS TRENDS AND PERSPECTIVES

Technical webinar organised by A.I.F.M. - Italian Association of  
Metal Finishing on occasion of **Fastener Fair CONNECT**

November 17 or 18 (date and time to be defined)

Call for  
papers

Nuts, bolts, screws, washers, ... all of these items belong to huge world of fasteners. Fasteners are used to hold together a wide range of products, from toys to vehicles, to containers, etc. Several kind of surface finishes can be applied to fasteners and fixing systems with the aim to improve both the functional properties (corrosion protection, controlled friction, etc.) and the appearance. Differing assembly needs, the development of new materials, the introduction of more and more strict environmental requirements and other aspects require a modification of the surface treatment processes.

The webinar has the scope to illustrate the recent progresses in the field of the metal finishing and surface treatment of fasteners and fixing.

**Are you an expert in the field of the metal finishing and surface treatments of fasteners? This call is for you! A.I.F.M. invites you to participate actively in this webinar and to share your work on any of the following topics:**

- Innovative electroplating treatments
- Improvement of traditional electroplating treatments
- Alternative coating systems
- Heat treatment
- Cleaning and pre-treatment systems
- Wear and corrosion protection
- Quality control, appearance and performances of the deposits
- Directives and standards
- Energy-saving solutions and eco-sustainability

## IMPORTANT INFORMATION

**Abstract submission deadline:** ~~September 30, 2021~~ **October, 15 2021**

**Duration of the presentation:** 15 minutes (+ 5 minutes for Q&A)

**Language:** English

The participation is free of charge

**Please, submit title and a short abstract of your presentation at [info@galvanotecnica.org](mailto:info@galvanotecnica.org)**

### About Fastener Fair CONNECT

Fastener Fair CONNECT is the first **online marketplace and digital business platform** unifying Fastener Fair shows worldwide. Fastener Fair Stuttgart, Fastener Fair Italy, Fastener Fair Mexico, Fastener Fair USA and Fastener Fair India are joining forces to provide a unique networking event targeting the global fastener and fixing industry. The **digital event**, scheduled to take place **from 17-18 November 2021**, will offer a comprehensive programme for trade professionals, including virtual product showcases, experts webinars and interactive matchmaking opportunities.
